

320

Outdoor Straight Stairs

The world's best selling stairlift

Folds away

When not in use the 320 folds flat, leaving plenty of space for other stair users.

At the top of your stairs

The 320 turns, allowing you to dismount in complete safety.

Stannah 320. Covering all the elements

The 320 is the first outdoor seated stairlift truly designed to work in a variety of weather conditions; sunshine, rain or snow. To cope with the ever-changing weather conditions, it has been tested to ensure it operates between -10°C and $+40^{\circ}\text{C}$, making it suitable for most countries.

Operating the 320 couldn't be easier. Lightly touch the joystick and glide effortlessly up or down the stairs. At the top of the stairs, simply press down on one of the swivel levers to turn the seat and face the upward direction, where you can easily and safely get on and off the seat.

The 320's battery-powered motor gives a quiet and smooth ride, as well as a gentle start and stop and because it charges continuously, the stairlift is ready for use even in a power cut. Every 320 stairlift comes with a protective cover to keep it clean and protect it from the weather.

The 320. Far more than just an outdoor stairlift.

- Joystick controls in the arm as standard
- Expert installation and full support
- Batteries for continuous use even in a power cut
- Grey finish to harmonise with its surroundings
- Guaranteed for 12 months from the date of installation
- Optional additional wall mounted call stations

LED light indicates that the 320 is on

Standard directional joystick for the 320

The 320 has a seatbelt as standard

320

Stannah, the world's *best selling* stairlift

The 320 Outdoor straight stairlift offers the perfect solution for homes in hilly areas, seaside resorts or cities with straight staircases, from external staircases to houses with basements and cellars. Even if the property has only three or four steps to negotiate, they no longer need to be a problem.

Discreet appearance

The 320 fits in perfectly with your stairs and your garden

Directional Controls

Mounted on either arm, the light joystick controls the stairlifts movements

Seatbelt

Manual swivel seat

Light touch levers on either side of the stairlift operate the swivel seat

Folding seat

The seat can be folded away for safety when not in use

Safety edges

Five sensitive safety edges immediately stop the stairlift if it meets an obstruction

*Due to the conditions in which it will be used, the 320 can only be installed into solid concrete, solid wood or metal

LED light

Indicates that the 320 is on

Foldaway padded armrests

On/Off switch

Keyswitch

If required the keyswitch can be used to completely immobilise the stairlift

Footrest

The footrest folds away for added safety when not in use

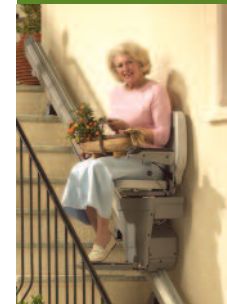

Rail

The stairlift travels along a slim, strong rail fitted to the stairtreads, not to the wall

Always ready to use

Optional remote call stations.

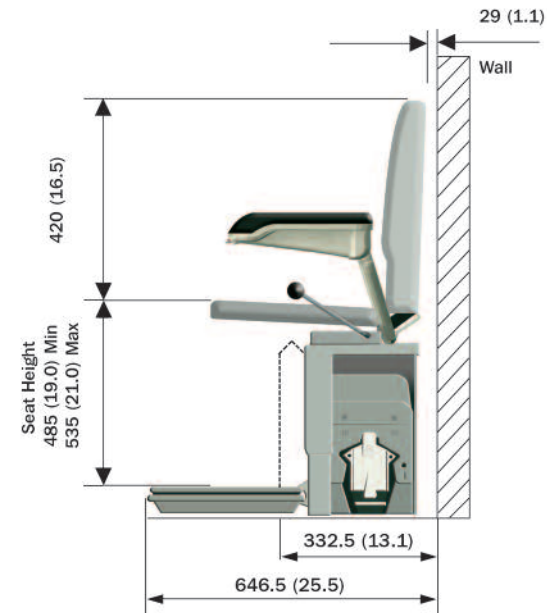

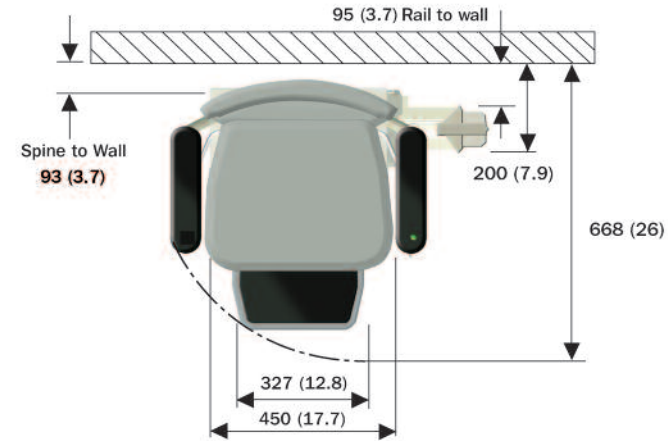

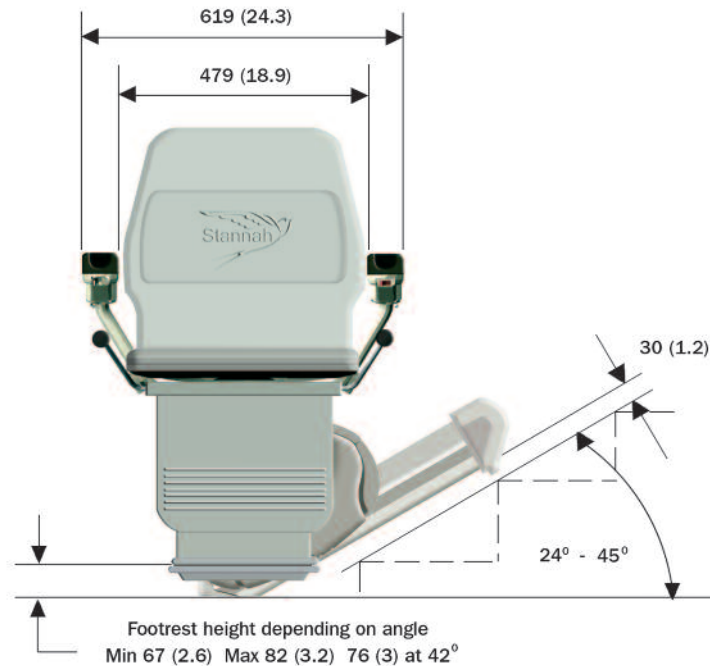

All year round protection

When not in use, the 320 is protected by a weatherproof cover.

320 dimensions

All product dimensions are accurate, however, you should add approximately 30mm (1.18) on dimensions that require clearance for the user, such as the minimum swivel width dimension.

Measurements are in millimetres. Measurements in brackets are inches. All dimensions measured from the wall are nominal. The addition of a wide stringer or similar obstruction may affect the dimensions taken from this point. The colour representation of the chair shown here is for illustrative purposes only.

Weight Limit Note: 135kg (Approx 21 stone 297 lbs) to 45°

Dealer Stamp

The next steps to your new *Stannah 320*

Simply contact your local Stannah Advisor who will arrange to visit your home for a friendly consultation. They'll listen to your needs, answer your questions and provide a full, free, no-obligation quotation. If you decide to go ahead, we'll measure your staircase and style your perfect stairlift with your chosen options built-in.

Quality installation by Stannah trained engineers.

Once your design is approved, we'll manufacture your stairlift, observing constant, rigorous quality and safety checks. And within a few days of ordering, a highly-trained Stannah engineer will install your stairlift in your home in just a few hours. After testing it thoroughly and making sure you're familiar with its operation, they will then clean up after their work, leaving your home just as they found it.

Expert support close at hand.

In the unlikely event that something goes wrong with your stairlift, help is never far away. Simply contact your nearest Stannah centre and a fully trained service engineer will promptly attend to your needs.

Comprehensive guarantee for your reassurance.

For added peace of mind, your Stannah stairlift comes with a comprehensive guarantee. For further information contact your local Stannah centre.
